Tola Joshua Shobowale

Software Developer

Well i am one of those products that came into tech from a non-tech related field and yes i practiced coding my way into learning the basic essential skills needed to be useful in today's technological advanced society. I am so looking to learn more and add values to software creation.

WORK EXPERIENCE

Web Developer Intern
Hack Academy

05/2020 - 07/2020

I Built single landing pages with Html and CSS (SASS). I also learnt and worked on Javascript DOM on how it adds dynamism to the web.

SubscriptionApp
This is a web app that is used to change your data plan and also request for tariff plans. This was created with Html, Css and Javascript . ⬈

LoopingStudioApp
I created this looping studio with a javascript and animation lib-AOS with also tailwind-css... ⬈

HangManApp
The HangMan puzzle is a Game that is created with Vanilla JS (also added confettiJs). The game is centered around the use of letters to save a man from dying ... ⬈

Portfolio
This is my personal website that showcases some of my newest projects and also gives an insight about myself being a software developer ⬈
